

V3 Tucson Resident Guidelines

Upon admission to V3 TUCSON, residents will be asked to sign and agree to the V3 TUCSON guidelines listed below. We welcome you to view this document as a way of evaluating appropriateness for the V3 TUCSON program.

"I am committed to participating in the V3 TUCSON program, and recognize that the facility is neither a treatment center nor a medical facility. As such, V3 TUCSON is not licensed nor required by Arizona law to hold license for services offered.

I am committed to keeping my living quarters and myself clean, neat and tidy. I am committed to dressing appropriately and to actively and cheerfully doing my share in a weekly rotating schedule, maintaining in a general way the property and the main house. I am aware that all of these activities are based on a process to encourage me to learn and to implement life skills. I will be courteous in my manner when interacting with others. I will also be prompt for all appointments in the 12-step community (attending at least 7 meetings a week), medical, dental, therapeutic, etc.

I clearly understand that to remain at V3 TUCSON I must remain sober, abstinent and drug free.

I am committed to refraining from any intimate relationships as long as I am a resident of this facility.

Tuition is non-refundable.

The consequence for non-compliance with any of these guidelines is dismissal from the V3 TUCSON program. V3 assumes no responsibility for any items left behind.
